## ABOUT

In a constantly changing world, the human aspect in organizations has never been so important. Compliance and risk management professionals need to develop new skills and tools to manage the human risk which is systematically underestimated in comparison of the legal dimension of risk management.

## OBJECTIVES

Perform an extended compliance risk analysis based on a thorough understanding of social psychology.

Develop effective compliance systems to reduce human risk in organizations and become a trusted partner.

Design effective compliance trainings to engage line managers and organization stakeholders on the topic.

## TARGET AUDIENCE

Compliance officers, senior managers and executives who work in the field of compliance.

Risk officers, senior managers and executives who are dealing with risk management challenges.

Managers in leadership functions who want to strengthen their company's approach of ethics and compliance.

01

## UNETHICAL DECISION MAKING
